

An Exceptional Lab Partner

NDX Clearwater has been a trusted partner for dentists since 1932. The lab provides a range of services, including crafting dentures, partials, crowns and bridges, veneers and fixed restorations. It also offers consultations and implant treatment planning.

The team at NDX Clearwater is committed to staying current with the latest technologies and applying them to enhance patient experiences. Their highly trained technicians, with an average of more than 20 years of dental experience, are dedicated to delivering top-quality, personalized service and ensuring that they exceed expectations.

“

NDX Clearwater is dedicated to ensuring you and your patients receive the attention and support you deserve.”

ERIC HARVEY, GENERAL MANAGER

Meet Our Family!

We believe that the key to a great relationship is making our doctors feel like they are a part of our family. Experience the open communication, personalized service and consistent quality of NDX Clearwater.

To contact any of our NDX Clearwater specialists, please call 727.530.9444.

NDX Clearwater features comprehensive lab services, including:

Dedicated Customer Service and Account Support

Gain access to extraordinary customer care representatives and account support experts. We're committed to promptly following up on all of your case needs while helping you find new opportunities to optimize your business.

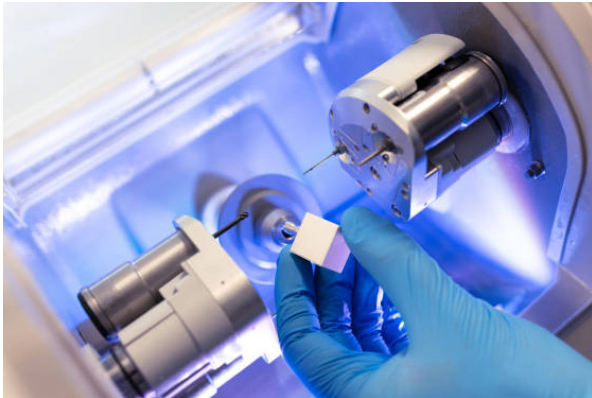

Technical Support

Receive support throughout every step of the restoration process. Our on-site certified technicians and technical support managers are here to help you minimize adjustments, eliminate additional chair time and improve your patients' overall dental experience.

Pick-Up and Delivery Services

Quality restorations are delivered anywhere in the United States — no matter where your practice is located.

State-of-the-Art Milling Centers

We design the most accurate restorations, fitted for your patients' needs and budgets.

NDX Clearwater provides products that exceed the expectations of your patients.

Find the latest options for flexible partials and a variety of custom appliances to treat sleep apnea. We offer products with a lifetime guarantee, such as Verotek® Crowns, and have many years of strong relationships with implant companies.

FEATURED PRODUCTS

Premium Cosmetics

A Certified Dawson Academy Laboratory, NDX Clearwater offers an aesthetic line of products, including PearlPress®, Verotek® Layered, Verotek Aesthetic Elite F2, temporary prostheses and Digital Design Diagnostics.

NDX Digital Dentures

The 3D-printed digital denture workflow provides a seamless production process by combining technology with existing techniques. Digital dentures can be completed in as little as three chairside appointments — saving time for you and your patients.

As dentistry evolves and practices grow, one thing remains the same: giving your patients the best possible care — at every visit. That means finding a partner to help you enhance your capabilities, optimize your digital workflows, help your team learn new skills and help you create the most realistic and comfortable restorations to keep your patients smiling.
