## 3D Printing with Lucitone<sup>®</sup> - Digital Print Dentures

**Embrace the future of dentures without having to buy a scanner!**

We use industry-leading Carbon 3D-printers to fabricate dentures from Lucitone Digital Print™ resin, an innovative material designed to considerably increase strength in the mouth as compared to traditional dentures. Your patients will be confident their dentures will not fracture when in use.

IPN 3D Teeth are included to enhance aesthetics.

**The digital process means,  
if needed, we are able to  
provide you with a**

**REPLACEMENT DENTURE
