

Sending a Case Using a FedEx Express Envelope

National Dentex and FedEx have collaborated to provide our customers with an enhanced shipping method.

Sending your patients' cases to a National Dentex Laboratory via a FedEx Express envelope will ensure an overnight delivery to the National Dentex Lab of your choice to provide a faster turnaround time.*

STEP 1:

Once your NDX case box is properly packed and taped shut with packing tape, insert your printed FedEx shipping label into the outer pouch of the FedEx envelope. If you have an adhesive label, you can place it on the FedEx envelope at this time.

STEP 2:

Gently flatten the bottom edge of the FedEx envelope to allow for easier insertion of the case.

STEP 3:

Place the case into the FedEx envelope.

STEP 4:

Seal the FedEx envelope by flattening the top portion and using the adhesive strip to securely fasten the envelope shut.

Your Case is Now Ready to Ship!

If you have any questions, please contact your NDX lab of choice directly!

*Does not apply to 2-day labels
