

An Exceptional Lab Partner

Lord's Gold & Ceramics, later known as Lord's Dental Studio, Inc. and now NDX Lords, was founded in November 1966.

It started as a small lab on Mason Street and later expanded to become a full-service laboratory with more than 50 employees. In 2005, NDX Lords unveiled a new, spacious facility, reflecting the company's growth and success.

The lab focuses on on-time delivery, local support for customers and partnering with dentists to share the NDX Lords team's expertise in all restoration areas.

“

We have a passion at NDX Lords for treating customers & patients like family. Every smile matters. We want to ensure you have the best possible lab experience!”

CHAD BARRETTE
General Manager

NDX Lords features comprehensive lab services, including:

Dedicated Customer Service and Account Support

Gain access to extraordinary customer care representatives and account support experts. We're committed to promptly following up on all of your case needs while helping you find new opportunities to optimize your business.

Technical Support and Chairside Expertise

Receive support throughout every step of the restoration process. Our on-site certified technicians and technical support managers are here to help you minimize adjustments, eliminate additional chair time and improve your patients' overall dental experience.

Pick-Up and Delivery Services

Quality restorations are delivered anywhere in the United States — no matter where your practice is located.

State-of-the-Art Milling

We design the most accurate restorations, fitted for your patients' needs and budgets.

Featured Products
